ACCESS TO MENDELEY

The image shows a screenshot of the Scopus website's document search page. The main navigation bar includes 'Scopus', 'Search', 'Sources', 'Alerts', 'Lists', 'Help', and 'SciVal'. Below this is a teal header for 'Document search'. The search interface features tabs for 'Documents', 'Authors', 'Affiliations', and 'Advanced'. A search input field contains the text 'E.g., "Cognitive architectures" AND robots'. To the right of the input field, there is a dropdown menu currently set to 'Article title, Abstract, Keywords'. Below the search field is a '> Limit' link. At the bottom right of the search area, there are 'Reset form' and 'Search' buttons. On the right side of the page, a dark user menu is open, listing options: 'Guest user', 'Register', 'Login', 'Personal profile access', 'My Scopus', 'My organization', 'SciVal', 'Mendeley', 'Pure', and 'Privacy center'. The 'Mendeley' option is circled in red. At the bottom of the page, there is a 'Resource Finder' logo with Persian text 'سازمان اسناد و کتابخانه ملی' and a blue flower icon.

Online Mendely(Library)

The screenshot displays the Online Mendely Library interface. At the top, there is a navigation bar with links for Feed, Library, Suggest, Groups, Datasets, Careers, and Funding. A search bar labeled "Library search" is positioned on the right. Below the navigation bar, a sidebar on the left contains an "Add" button with a dropdown menu. The dropdown menu includes options: "Import document", "New folder", "New manual entry", "Import Endnote (.xml)", "Import RIS (.ris)", and "Import BibTeX (.bib)". Below the menu are "FOLDERS" with a "Create Folder..." option and a folder named "az".

The main content area shows a list of journal articles. The table below summarizes the visible entries:

On the right side, a "Details" panel is visible for the selected article "No Title (1385 pp)". It shows the article type as "Journal Article" and includes a "FILES" section with a PDF file named "CANCER_NPMC.pdf" (10.65 MB). A "Click or drag file here" area is also present.

New Folder

The screenshot shows the Mendeley Library web interface. On the left, a sidebar contains a menu with the following options: '+ Add', 'Import document', 'New folder', 'New manual entry', 'Import Endnote (.xml)', 'Import RIS (.ris)', and 'Import BibTeX (.bib)'. Below this menu, the 'FOLDERS' section is visible, showing a '+ Create Folder...' button and a folder named 'az'. The main content area displays a message from 'www.mendeley.com' that says 'Please enter a folder name' with an empty text input field. Below the input field are 'OK' and 'Cancel' buttons. The background of the main area shows an 'Empty' folder icon and the text: 'Welcome to Mendeley Library, a place to organise, read and annotate your journal articles and other documents.' A blue button labeled '+ Upload documents now' is positioned below the welcome message. At the bottom of the main area, there is a dashed-line graphic and the text 'or drop them here'.

New Manual Entry

The screenshot displays the Mendeley Library interface for creating a new manual entry. The top navigation bar includes 'Feed', 'Library' (selected), 'Suggest', 'Groups', 'Datasets', 'Careers', and 'Funding'. A search bar is present with the text 'Library search' and a user profile 'reyhaneh' with initials 'RV'. The main area is divided into three sections:

- LIBRARY SIDEBAR:** Contains navigation options like 'All Documents', 'Favorites', 'My Publications', 'Recently Read', 'Recently Added', 'OLDERS', and 'Create Folder...'. A folder named 'az' is visible.
- LIBRARY VIEW:** Shows an 'Empty' library with a folder icon and the text: 'Welcome to Mendeley Library, a place to organise, read and annotate your journal articles and other documents.' A blue button '+ Upload documents now' is present. A large dashed circle contains the text 'or drop them here' and an icon of a document being dragged, with a blue mouse cursor pointing at it.
- ENTRY FORM:** A right-hand panel for entering document details. It includes:
 - TYPE:** A dropdown menu set to 'Journal Article'.
 - TITLE:** An empty text input field.
 - AUTHORS:** An empty text input field.
 - ABSTRACT:** A large empty text area.
 - DETAILS:** A section with input fields for 'Journal', 'Year', 'Volume', 'Issue', and 'Pages'.
 - CATALOG IDS:** A section for entering catalog identifiers.

At the top of the form, there are 'Save' and 'Cancel' buttons. The top of the library view has a toolbar with 'Add to', 'Remove from folder', 'Delete', and 'Export to MS Word' options, along with a sort dropdown set to 'Added (newest)'.

Add to

The screenshot displays a web application interface with a navigation bar at the top containing 'Feed', 'Library', 'Suggest', 'Groups', 'Datasets', 'Careers', and 'Funding'. A search bar is located on the right. Below the navigation bar, there is a toolbar with 'Add to', 'Delete', and 'Export to MS Word' options. The main content area shows a list of documents with columns for checkboxes, star icons, document icons, titles, authors, and dates. A modal dialog box titled 'Add 1 document to' is open, showing a list of destinations: 'My Library' (selected), 'Groups', 'Create Folder...', 'Favorites', 'My Publications', and 'az'. The left sidebar contains a 'LIBRARY' section with options like 'All Documents', 'Favorites', 'My Publications', 'Recently Read', and 'Recently Added', as well as a 'FOLDERS' section with 'Create Folder...' and 'az'.

Add Folder

The screenshot displays the Mendeley Desktop application interface. The main window shows a list of documents under the group 'My EndNote Library 1'. The columns include Authors, Title, Year, and Published In. A dialog box titled 'Add Folder' is open in the foreground, prompting the user to 'Select the folder you would like to import:'. The dialog shows a file tree structure starting from 'C:\', with 'Users' expanded to 'Public' and then 'User'. Under 'User', the 'Documents' folder is expanded, showing three subfolders: 'My EndNote Library1.Data', 'My EndNote Library.Data', and 'My EndNote Library123.Data'. The 'Also import from subfolders' checkbox is checked. The background interface includes a sidebar with 'Mendeley Literature Search', 'My Library' (with options like 'All Documents', 'Recently Added', etc.), and 'Groups'. The details pane on the right shows information for a document titled 'Can drones be used to conduct water sampling in aquatic environments? A review', including authors (H. Lally, I. O'Connor, O. Jensen), journal name, year (2019), volume (670), issue (670), and pages (569-575).

Below the dialog box, there are instructions: 'Generate a file for use with external citation management software.' and 'Download 1 citation.' A 'Create File' button is visible at the bottom of the dialog box.

The article abstract is visible below the dialog box, starting with 'The polyamines spermine, spermidine, and putrescine are involved in various biological processes, notably in cell proliferation and differentiation, and also have antioxidant properties. Dietary polyamines have important implications in human health, mainly in the intestinal maturation and in the differentiation and development of immune system. The antioxidant and anti-inflammatory effect of polyamine can also play an important role in the prevention of chronic diseases such as cardiovascular diseases. In addition to endogenous synthesis, food is an important source of polyamines. Although there are no recommendations for polyamine daily intake, it is known that in stages of rapid cell growth (i.e., in the neonatal period), polyamine requirements are high. Additionally, *de novo* synthesis of polyamines tends to decrease with age, which is why their dietary sources acquire a greater importance in an aging population. Polyamine daily intake differs among to the available estimations, probably due to different dietary patterns and methodologies of data collection. Polyamines can be found in all types of foods in a wide range of concentrations. Spermidine and spermine are naturally present in food whereas putrescine could also have a microbial origin. The main polyamine in plant-based products is spermidine, whereas spermine content is generally higher in animal-derived foods. This article reviews the main implications of polyamines for human health, as well as their content in food and breast milk and infant formula. In addition, the estimated levels of polyamines intake in different populations are provided.'

The article also includes a 'KEYWORDS' section: 'breast milk; food; human health; polyamines; putrescine; spermidine; spermine'.

Recommendations for reporting of systematic reviews and meta-analyses of diagnostic test accuracy: a systematic review.

Authors: T. McGrath, M. Alabousi, B. Skidmore et al.

Journal: *Systematic reviews*

Year: 2017

Volume: 6

Issue: 1

Pages: 194

Abstract:

BACKGROUND: This study is to perform a systematic review of existing guidance on quality of reporting and methodology for systematic reviews of diagnostic test accuracy (DTA) in order to compile a list of potential items that might be included in a reporting guideline for such reviews: Preferred Reporting Items for Systematic Reviews and Meta-Analyses of Diagnostic Test Accuracy (PRISMA-DTA). METHODS: Study protocol published on EQUATOR website. Articles in full text published on EQUATOR website. Articles in full text published on EQUATOR website. Articles in full text published on EQUATOR website.

Mendeley Web

The screenshot displays the Mendeley Web interface. At the top, there is a navigation bar with links for Feed, Library (underlined), Suggest, Groups, Datasets, Careers, and Funding. A search bar labeled 'Library search' is on the right, and a user profile 'Reyhaneh' is visible. Below the navigation bar is a toolbar with 'Add to', 'Delete', and 'Export to MS Word' options, and a dropdown menu set to 'Added (newest)'. The left sidebar shows a 'MY LIBRARY' section with 'All Documents' selected, along with 'Favorites', 'My Publications', 'Recently Read', and 'Recently Added'. Below this is a 'FOLDERS' section with a '+ Create Folder...' option. The main content area features a 'All Documents' heading with a printer icon, a welcome message: 'Welcome to Mendeley Library, a place to organise, read and annotate your journal articles and other documents.', and a '+ Upload documents now' button. A large dashed circle contains the text 'or drop them here' and an icon of a document being dragged, with a blue arrow pointing to it. On the right side, a vertical panel shows 'No document selected'.

Add Document

The screenshot displays the Mendeley web application interface. At the top, there is a navigation bar with links for Feed, Library, Suggest, Groups, Datasets, Careers, and Funding, along with a search icon and a user profile for Reyhaneh. The main content area is divided into two sections: "Articles for you" and "People to follow". A central dialog box titled "Add document" is overlaid on the page, indicating that file uploads will be added to the library. The dialog shows a progress bar for a file named "159753.pdf" which is 86% complete. Below the dialog, there is a "Products" section with links to various Mendeley services and a footer with copyright information and social media icons.

The screenshot shows a web application interface for a library. At the top, there is a navigation bar with tabs for 'Feed', 'Library' (which is active), 'Suggest', 'Groups', 'Datasets', 'Careers', and 'Funding'. A search bar labeled 'Library search' is on the right, and a user profile for 'Reyhaneh' with initials 'RV' is in the top right corner. The main content area is titled 'MY LIBRARY' and shows a list of documents in a trash view. The list has a header with 'Restore' and 'Delete forever' actions, and a sort dropdown set to 'Added (newest)'. Three documents are listed, all with a checked selection box:

Selection	Document Title	Time

The screenshot displays the Mendeley Desktop application interface. At the top, there is a menu bar with 'File', 'Edit', 'View', 'Tools', and 'Help'. Below the menu bar is a toolbar with icons for 'Add', 'Folders', 'Related', 'Sync', and 'Help'. A search bar is located in the top right corner, highlighted with a red box, containing the text 'Search...'. To the right of the search bar is the user's name 'reyhaneh' and a profile icon.

The main area is divided into two panes. The left pane, titled 'Mendeley', contains a sidebar with 'Literature Search' and 'My Library'. The 'My Library' section includes 'All Documents', 'Recently Added', 'Recently Read', 'Favorites', 'Needs Review', 'My Publications', 'Unsorted', and folders 'az' and 's'. Below these are options for 'Create Folder...' and 'Groups' (with a sub-option '1 library' and 'Create Group...'). At the bottom of the sidebar is 'Trash' with 'All Deleted Documents'.

The right pane, titled 'All Documents', shows a table of documents. The table has columns for 'Authors', 'Title', 'Year', and 'Published In'. The documents listed are:

Introduction: Amniotic fluid embolism (AFE) is a rare and potentially lethal obstetric complication, commonly occurring during labor, delivery, or immediately occurring postpartum. There is a paucity of data regarding incidence, risk factors, and clinical management. Our primary objective in this study was to evaluate clinical presentation of AFE and delineate anesthesia management of these cases. Methods: This 10 years retrospective multi-center cohort study was performed in five tertiary university-affiliated medical centers, between the years 2005 and 2015. All documented cases of AFE identified according to the ICD guidelines were review...". A "Tag 1; Tag 2; ..." dropdown menu is visible at the bottom of the abstract section.

The main document area contains a paragraph of text with several words underlined in red, indicating citation errors.

Advancements in drone technology have seen the development of drone-assisted water sampling payloads resulting in the ability of drones to retrieve water samples and physico-chemical data from aquatic ecosystems. The application of drones for water sampling provides the potential to fulfil many aspects of the biological and physico-chemical sampling required to meet large-scale water sampling programmes. This paper reviews the achievements made in the development of drone platforms; advances in specially designed water sampling payloads; advances in incorporating off-the-shelf probes and the ability of drone-assisted water sampling payloads to capture water and physico-chemical

The ribbon includes sections for 'Table of Contents', 'Footnotes', 'Mendeley Cite-O-Matic', 'Citations & Bibliography', 'EndNote', 'Captions', and 'Index'. The main document area contains two paragraphs of text. The first paragraph discusses drone technology and water sampling, with a citation placeholder '(1)' circled in red. The second paragraph continues the discussion and includes a second citation placeholder '(2)'. Below the text, a red-bordered box contains a list of two references corresponding to the placeholders.

Abstract:

Many students struggle when citing sources in their research papers and have turned to web-based citation tools in increasing numbers. In order to test the accuracy of the citations generated by these products, a sample of student-selected electronic journal articles was collected and MLA and APA citations for these articles were created using EBSCO Discovery Service's Cite tool, EndNote Basic, RefWorks, and Zotero. Although EndNote Basic, RefWorks and Zotero's APA citation error rates were

Drag & Drop a Persian Record

The screenshot shows the Mendeley Desktop application interface. The main window displays a list of records under the 'All Documents' tab. The records are organized in a table with columns for Authors, Title, Year, and Published In. The record 'No Title' is highlighted with a red box. The right-hand side of the interface shows the 'Details' panel for the selected record, which includes fields for Type, Authors, Journal, Year, Volume, Issue, Pages, Abstract, Tags, Author Keywords, URL, and Catalog IDs.

On the right side, a 'Details' panel is open for the selected document, 'Pregnancy and the cardiovascular system'. It shows the authors 'A. Abbas, S. Lester, H. Connolly' and the journal 'International Journal of Cardiology'. A yellow warning box at the top of the details panel states: 'Duplicates have conflicting fields. Unchecked boxes indicate fields where the duplicates conflict. Please review these fields before merging. More info...'. A red box highlights a 'Confirm Merge' button within this warning area. Below the warning, there are checkboxes for 'Type: Journal Article', 'View research catalog entry for this paper', and 'Journal: International Journal of Cardiology'. At the bottom, there are checked checkboxes for 'Year: 2005', 'Volume: 98', 'Issue: 2', and 'Pages: 179-189'.
