The screenshot shows the homepage of the Master Journal List. At the top, there is a navigation bar with the Web of Science Group logo, the title 'Master Journal List', and several menu items: 'Search Journals', 'Match Manuscript', 'Downloads', and 'Help Center'. On the right side of the navigation bar, there are two buttons: 'Login' and 'Create Free Account'. The main content area has a dark blue background with a starry pattern. The primary heading reads 'Browse, search, and explore journals indexed in the Web of Science'. Below this, a paragraph explains that the Master Journal List is a tool for finding journals across multiple indices. A search bar is provided with the placeholder text 'Search Journal, ISSN or title word...' and a blue 'Search Journals' button. Below the search bar, there is a section titled 'Already have a manuscript?' with a sub-heading 'Find relevant, reputable journals for potential publication of your research based on an analysis of tens of millions of citation connections in Web of Science Core Collection using Manuscript Matcher.' A blue 'Match Manuscript' button is highlighted with a red circle.

## MASTER JOURNAL LIST

The screenshot shows the 'Master Journal List' website interface. At the top, there is a navigation bar with the 'Web of Science Group' logo, 'Master Journal List' title, and links for 'Search Journals', 'Match Manuscript', 'Downloads', and 'Help Center'. On the right side of the navigation bar, it says 'Welcome, nasrin makani' with 'Settings' and 'Log Out' options.

The main content area features a 'Browse, s...' section with a starry background. Below this, there is a 'Manuscript Matcher' modal window. The modal has a title bar with a close button (X). The text inside the modal reads: 'Manuscript Matcher helps you find the most related journals for your manuscript. It works best when your title has at least 10 words and your abstract has at least 100 words. Using this information, it will pull the most relevant keywords for matching. Please enter your manuscript information below.'

There are two input fields: 'Title' and 'Abstract'. The 'Title' field contains the text: 'Zinc supplementation does not influence serum levels of VEGF, PDGF, and NGF in diabetic retinopathy patients: a randomized controlled clinical trial'. The 'Abstract' field contains the text: 'Strong positive relationship between the growth factors and their inverse association with metabolic factors is possibly suggesting the contribution of these factors in the pathogenesis of DR through acting in a same biological pathway. © 2018 Informa UK Limited, trading as Taylor & Francis Group'. Both fields have a small icon in the bottom right corner.

Below the input fields, there are two buttons: 'Cancel' and 'Find Journals'. A purple text overlay at the bottom of the modal reads: 'عنوان و چکیده مقاله را وارد نمائید'.

Abstract  
This study was aimed to evaluate the effects of zinc (Zn) supplementation on serum levels of vascular endothelial growth factor (VEGF), brain-derived neurotrophic factor (BDNF), and nerve growth factor (NGF) in patients with diabetic retinopathy (DR). Methods: In this randomized clinical trial, 50 patients with DR were allocated into the Zn (n = 25) and placebo (n = 25) groups to receive 30 mg Zn gluconate or maltose dextrin per day, respectively, for three months. **Welcome to Jane**

Have you recently written a paper, but you're not sure to which journal you should submit it? Or maybe you want to find relevant articles to cite in your paper? Or are you an editor, and do you need to find reviewers for a particular paper? Jane can help.

Just enter the title and/or abstract of the paper in the box, and click on 'Find journals', 'Find authors' or 'Find Articles'. Jane will then compare your document to millions of documents in PubMed to find the best matching journals, authors or articles.

**Keyword search**

Instead of using a title or abstract, you can also search using a keyword search, similar to popular web search engines. Click [here](#) to search using keywords.

**Beware of predatory journals**

JANE relies on the data in PubMed, which can contain papers from predatory journals, and therefore these journals can appear in JANE's results. To help identify high-quality journals, JANE now tags journals that are currently indexed in MEDLINE, and open access journals approved by the Directory of Open Access Journals (DOAJ).
